My Fire Escape Book:

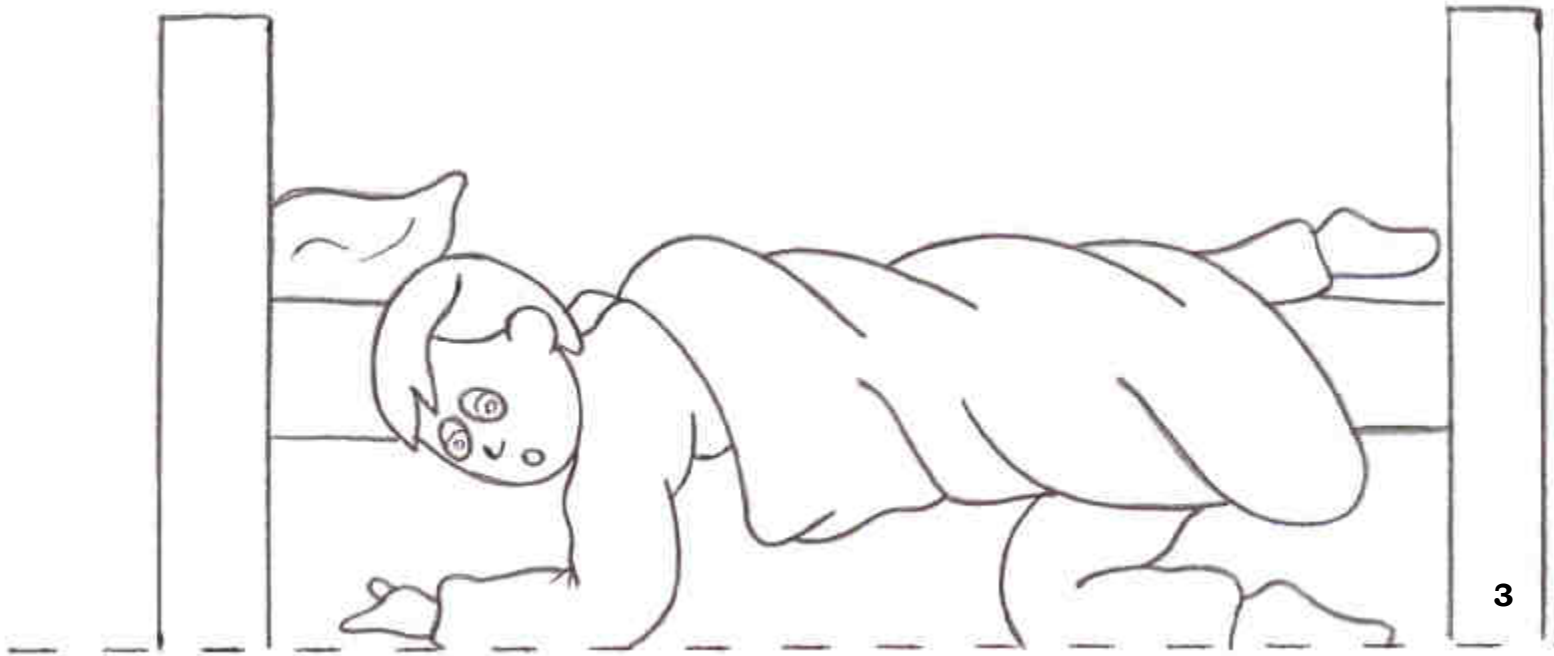

1

You hear that? It's the fire alarm! I know because I had my parents set it off for me so that I could hear what it sounds like.

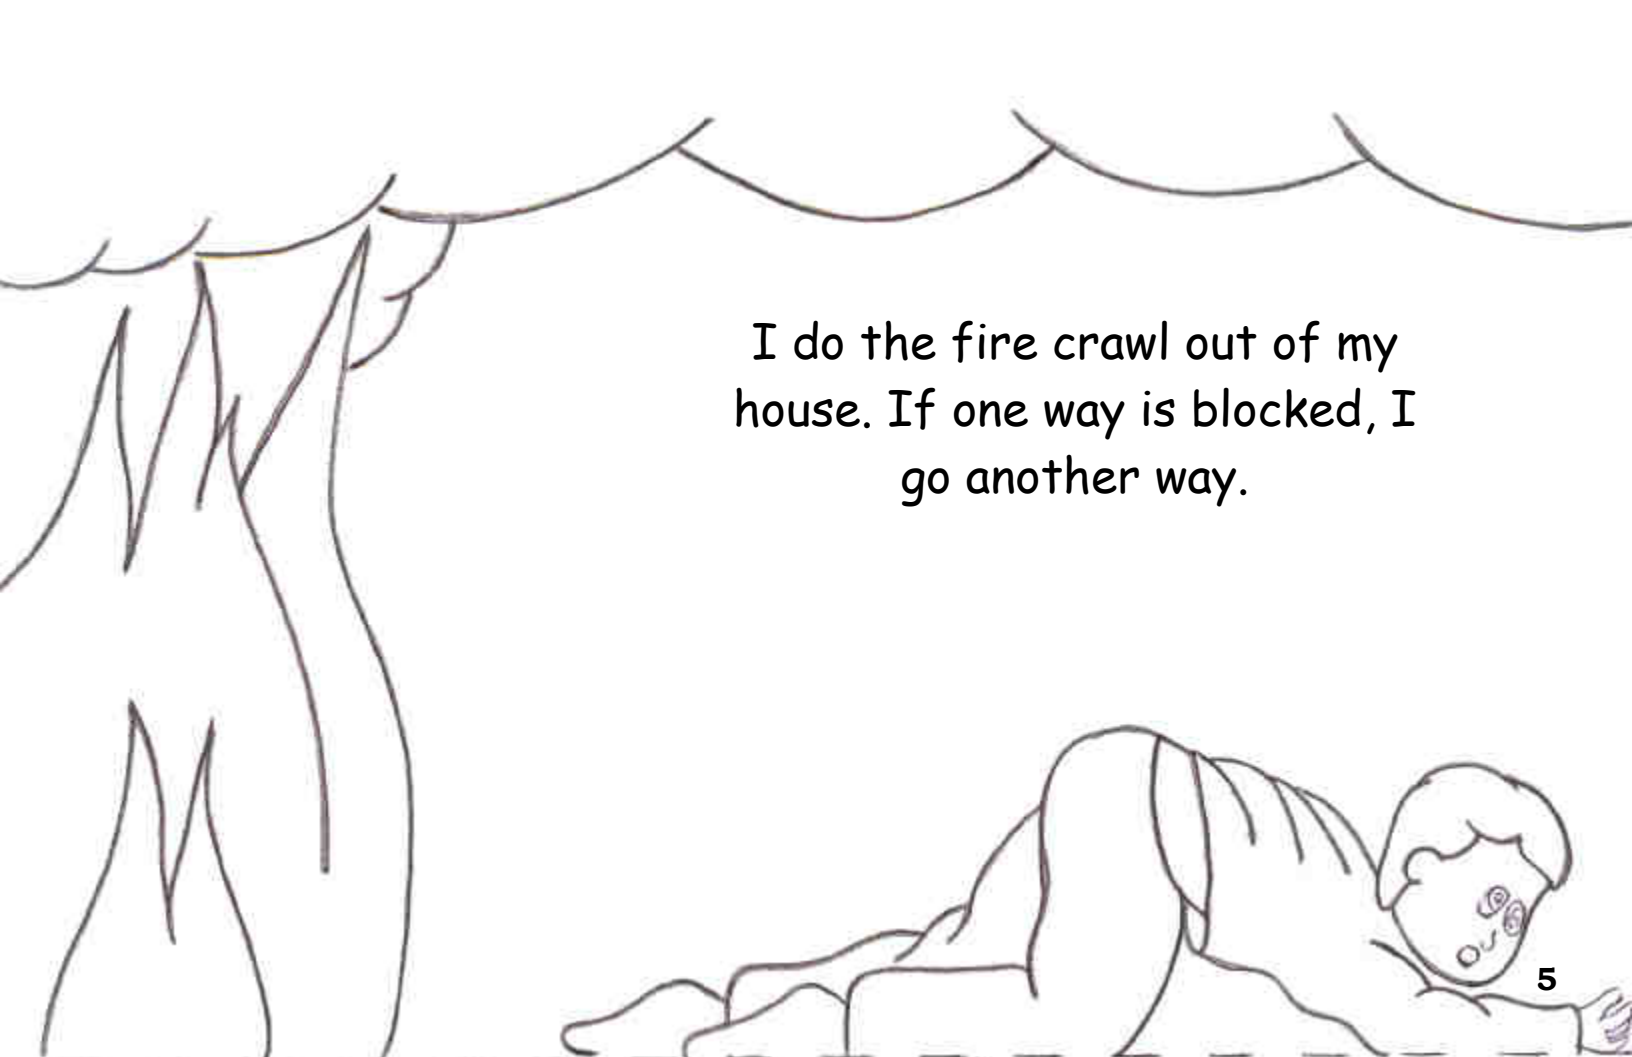

2

I know exactly what to do.
First, I roll out of bed.

I don't get dressed. I don't stop for anything.
I don't try to find my toys or look for mom or dad.
I just head out right away.

I do the fire crawl out of my house. If one way is blocked, I go another way.

Safe outside!
Go right to your family's meeting spot, so that rescuers know you got out alright.

The end.
