

Goons and goblins aren't the only thing out and about on Halloween night. There are all sorts of crazy drivers too-many of which who have been drinking alcohol and partying early. So always keep an eye out for cars. Carry a flashlight with you-not so you can see but so THEY can see YOU. Look all around you for any ghosts or goblins who decide they want to drive on the sidewalk. Oh, and be sure to have a buddy with you, either your mom or dad or another adult.

Have a safe and happy Halloween!
