

Never play in, around, or underneath cars.

Automobiles are a machine-not a toy. Someone could get in and drive off without seeing you. You might not have enough time to move, or someone might accidentally put the car into gear or release the parking break. Also, never run behind a car to try and get your morn or dads attention. Many kids get hurt because they chase after mom, and she doesn't see them and runs them right over. Keep an eye out for little kids too!
