

Safe Boarding Rules:

1. Always remember your helmet! No serious boarder could ever bust out all his moves without his head protected.
2. Kneepads and elbow pads are nice too.
3. Never try and do tricks near the street. It could be deadly...for you OR your board! (Trust me; it sucks to have your board smashed by car.)
4. Learn how to fall! Practice on your lawn.
5. Always pay attention to your surroundings.
