Assume

If you ever find a gun laying around, don't touch it, and tell an adult right away. You should always **assume** any gun you find is real and loaded, until an adult tells you otherwise.

4. _____

Trigger

Guns can sometimes accidentally discharge, which means they shoot without someone pulling the **trigger**. Sometimes this happens if they are bumped against something, or if the trigger snags on clothing. Just another reason you should never handle a gun: they are dangerous!

4. _____

Handle

The newspapers are full of stories of adults who have accidentally shot themselves or a friend. If even adults have gun accidents, imagine how dangerous they would be for kids to **handle**!

4. _____

Bullet

A **bullet** is the projectile that fires from the gun. Many kids don't realize that bullets can be dangerous even without a gun. If a **bullet** is held to a heat source or struck in a way that makes a spark, a **bullet** can fire all on its own!

Nearby

If you're ever around a friend who wants to play with a gun, leave the area immediately and tell an adult. When kids play with guns, it's often other kids **nearby** who end up getting shot!
